

AHMET EREN ERTAŞ

JUNIOR UNITY GAME DEVELOPER | C# | 2D/3D

Location: Sakarya, Türkiye

Date of Birth: 03 July 2006

ABOUT

- Computer Programming student and Unity Game Developer with 4+ years of hands-on Unity development experience.
- Experienced in end-to-end mobile game development, from concept and gameplay design to optimization and release.
- Focused on gameplay systems, performance optimization, UI systems, and scalable architecture.
- Developed strong C# skills through academic studies and hands-on game development experience, with additional experience in Python.
- Gained international experience, adaptability, and cross-cultural communication skills through the Erasmus+ Program.

SKILLS

- English (B2)
- Unity (2D & 3D) C# (Advanced)
- C++, Python & HTML (Beginner)
- Game Development | Gameplay Mechanics
- Game Design | Level Design
- UI/UX | Responsive Design
- Performance Optimization | Event-Driven Architecture
- Monetization (Rewarded Ads & IAP)
- Google Play Publishing (Play Console)
- Android Build & Deployment
- Social Media Marketing

EXPERIENCE

Independent Game Developer (Unity, C#)

Project Name: Pino's Book

- Independently developed a **50-level mobile platformer**, managing the full lifecycle from concept to production
- Built core gameplay systems (controller, physics, collisions, UI, animations) using **Unity and C#**
- Designed **responsive UI systems** with Canvas Scaler and modular, event-driven architecture
- Integrated **rewarded ads and in-app purchases**; optimized monetization based on player flow
- Optimized performance using **Unity Profiler** (reducing unnecessary Update calls and improving physics and collider efficiency), achieving stable 60 FPS
- Designed and implemented **narrative-driven** gameplay, including story, dialogues, and cinematic sequences
- Managed **audio systems and overall UX flow**
- Tested and debugged the game across multiple Android devices.

Project Status (31.08.2026)

- The project has successfully completed the **Closed Testing** phase on Google Play Console, with Production Access approved. The project is planned for official release after final refinements and promotional content production are completed.

EDUCATION

SAKARYA UNIVERSITY OF APPLIED SCIENCES,
VOCATIONAL SCHOOL OF INFORMATION TECHNOLOGIES IN
SAKARYA/TURKIYE

- Computer Programming | 2024–Present

STATE UNIVERSITY OF APPLIED SCIENCES IN
JAROSLAW/POLAND

- Computer Use | 2025–2026
- Erasmus+ Exchange Program
